

I have been very happy with the no call list. It has made a tremendous difference in the quality of our home life. I do not want this to go away or to be weakened. In fact, I would like more organizations added to the no call list. If this no call list goes away or is weakened I may very well cancel my phone. Send me info in the mail, I can look at it at MY convenience. Or give me your home number and I'll call you and ask you questions at a time that is convenient for me and see how much you appreciate it.
